Skills

Design

UX research: user interviews, usability testing, product metrics analysis, and A/B testing. Generating and validating hypotheses based on user data from analytics services. Designing interaction scenarios: CJM, user flows, interface prototyping. Creating and maintaining a component library and design tokens as part of the design system. Writing interface copy in an informative style, aligned with the product's tone of voice.

My career

June 2025 – Now, 1 year 4 months

sellmonitor.com

Sales analytics service for marketplace sellers

Product Designer

Designing interfaces for new sections of the service without mockups — directly in code, on the component library.

- Designed the interfaces of 6 new sections of the service: page structure, tables, filters, charts, and user flows — without mockups, directly on the frontend.
- Designed improvements to 5 existing sections during development.
- Evolved the visual language of the shared component library: tables, charts, loading and empty states.

Figma

October 2022 – June 2026, 3 years 7 months

Project work

Studio 15

Web development outsourcing studio

UX/UI Designer

Reviewing contractor mockups and refining designs during development.

Figma

ipgate.io

Proxy rental service

Product Designer

Based on user feedback, completed a full redesign of the project while preserving functionality and implemented it in code during the Nuxt migration.

Figma

December 2021 – September 2022, 9 months

sellmonitor.com

Sales analytics service for marketplace sellers

Product Designer

Designing interfaces for new sections of the service without mockups — directly in code.

- Designed the interfaces of 6 new sections of the service: page structure, tables, filters, charts, and user flows — without mockups, directly on the frontend.
- Defined the visual language of the base component library: buttons, inputs and forms, pagination, popovers, loading and empty states.

Figma

October 2018 – December 2021, 3 years 2 months

reg.ru

Russia's largest domain registrar and hosting provider

Product Designer

Designing an internal HR project, the domain area and the company's design system.

- Designed an internal HR project for managing company employees.
- Designed the domain purchase flow with add-on services that had never been sold in it before — sales grew.
- Implemented design tokens and a unified component library in the company's design system.

Figma · Miro · Notion

October 2016 – October 2018, 2 years

Designer

Designing a demo website for a printing shop.

Adobe Photoshop · Adobe Illustrator

January 2011 – February 2014, 3 years 1 month

Freelance and Printing houses

Print production and graphic design

Designer

Typesetting of books, newspapers and magazines. Graphic design. Advertising printing.

Adobe Photoshop · Adobe Illustrator · Adobe InDesign

Projects

Alongside my main job, I build my own open source Figma libraries of styles and components, kept in sync with npm packages, and make app concepts.

Figma · Notion

pbcomponents

React component library for rapid interface prototyping

[GitHub](#) [npm](#) [Figma Community](#) [Behance](#)

pbstyles

Style and design token library for rapid interface prototyping

[GitHub](#) [npm](#) [Figma Community](#) [Behance](#)

Bank Money Time

Interface design for a banking application of the future that allows transfers across time

[Behance](#) [Figma](#)

Shake to mind

Assistant for memorizing text
